Before you start

The Ventracard is your business card in Apple Wallet. One scan with any phone camera opens your LinkedIn profile; the person scanning needs no app.

This guide shows every step, from the empty card to the card on your lock screen, and what to do if you want to change it or something does not work.

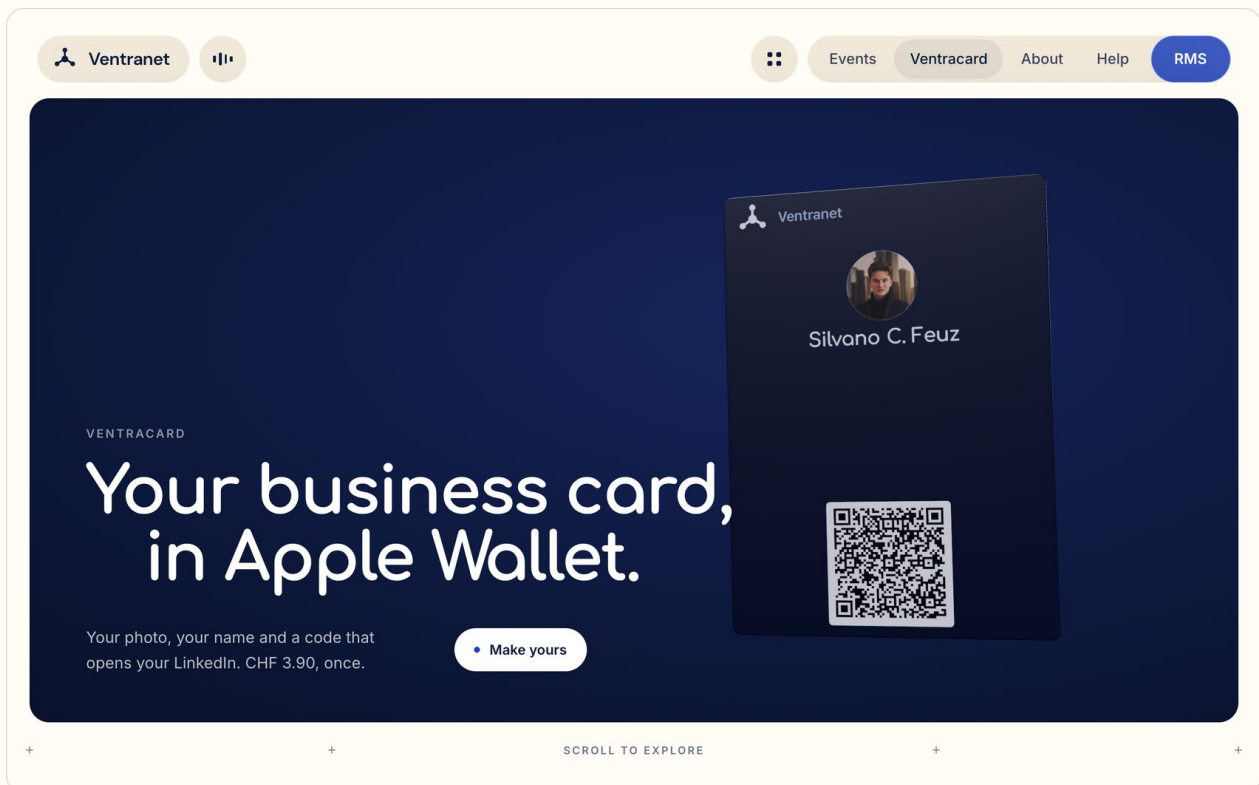

1. Your Ventracard

What it is, how to make one, and how it gets into Wallet.

What the Ventracard is

A card in Apple Wallet with your photo, your name and a code that opens your LinkedIn.

The Ventracard is a business card that lives in **Apple Wallet** on your iPhone. It shows your photo, your name and a large QR code.

ventranet.ch/ventracard.

Someone scans the code with their phone camera and lands on **your LinkedIn profile**. They need no app and install nothing. You do not have to spell your name or search for each other.

What is on it

- The Ventrane mark at the top.
- Your photo, round, with your name under it.
- The code, in a white square at the bottom.

That is all. No job title or phone number, no text to keep up to date.

Why only LinkedIn

The code leads to one place, and it has to be one that stays current without you. Your LinkedIn already does. The card accepts addresses on *linkedin.com* and *lnkd.in*, nothing else.

Your card page

Every card also has its own page at ventranet.ch/ventracard/k/... with your name, your photo, a link to your LinkedIn and the button to add the card to Wallet. Anyone with the link can open it, but search engines do not list it. Keep the link. It is how you get back to your card.

The Ventracard is an Apple Wallet pass. There is no version for Google Wallet.

CHF 3.90

OPENING IT

SIDE BUTTON

Double-click

What you get: CHF 3.90 once, opened with a double-click, scanned without an app, and ready right after paying.

Make your Ventracard

Name, photo, LinkedIn link, email, payment. No account needed.

On [Ventracard](#) you make the card yourself. The preview beside the fields is exactly how it will look in Wallet.

Make yours: name, photo and QR code, each in its own field. The card on the left fills in as you go.

1. **Your name.** As it should appear under your photo.
2. **Your photo.** Upload one and crop it, or choose **Import via LinkedIn** to take your profile photo.
3. **Your code.** Paste the link to your LinkedIn profile and choose **Create code**.
4. **Continue**, once all three are there.
5. **Your email.** The receipt and the link to your card go here. No account is created.
6. **Payment.** CHF 3.90, once. You pay through Stripe; Apple Pay appears there when your device supports it.

Right after the payment you see **Payment received** with your reference and an **Add to Apple Wallet** button. The email *Your Ventracard is ready* follows, with the link to your card page.

Keep that email. There is no password: the link in it is the way back to your card.

Your LinkedIn link

Open your profile on LinkedIn and copy the address. It starts with `https://www.linkedin.com/in/`. Short links on *lnkd.in* work too.

Photo ✓ DONE

A clear headshot works best. We crop it into the circle for you.

Upload Photo in Import via LinkedIn

QR code ✓ DONE

Paste your LinkedIn profile link and we turn it into your code.

Questions

[More in the Help Center](#)

All three done: Continue takes you to paying.

Add the card to Apple Wallet

On your iPhone, two taps. From a computer, open the card page on your phone.

On your iPhone

Open your card page (the link in your email) and tap **Add to Apple Wallet**. Wallet shows the card; tap **Add**. Done.

From a computer

Wallet lives on the phone. Open the link from your email on your iPhone and add it there. In the RMS, **Add to iPhone Wallet...** shows a QR code. Scan it with the iPhone camera and the card page opens on the phone.

That QR code only opens your card page. It is not the code on your card.

Showing it

Open Wallet, tap the card, and hold the phone out. The other person scans the code with their camera.

Android

The Ventracard is an Apple Wallet pass and does not open in Google Wallet.

2. Changes, payment & refunds

Changing the card, the RMS version, the price and refunds.

Change your Ventracard

Change the photo or link on a card from the website or from the RMS.

A card you made on the website

There is no account behind it, so there is nothing to sign in to. Write to admin@ventranet.ch with your **reference** (it is in your email) and say what should change.

If you later create an RMS account **with the same email**, the card joins that account by itself. From then on you change it yourself, in the RMS under Profile → Ventracard.

A card in the RMS

Profile → Ventracard. Each field can follow your profile or hold its own value. Empty fields use your profile, so the card follows when your profile changes.

One card, one person. Small changes to the name are fine: a typo, a middle name. A different name is not, because a Ventracard belongs to one person. After a marriage, for example, choose **Ask support to change it...** We check by hand and answer by email.

Getting the new version into Wallet

Wallet does not update the card by itself. After a change, open your card page and add the card to Wallet again. The new one replaces the old. On a card without an account, a new LinkedIn link gives you a second card, so delete the old one in Wallet.

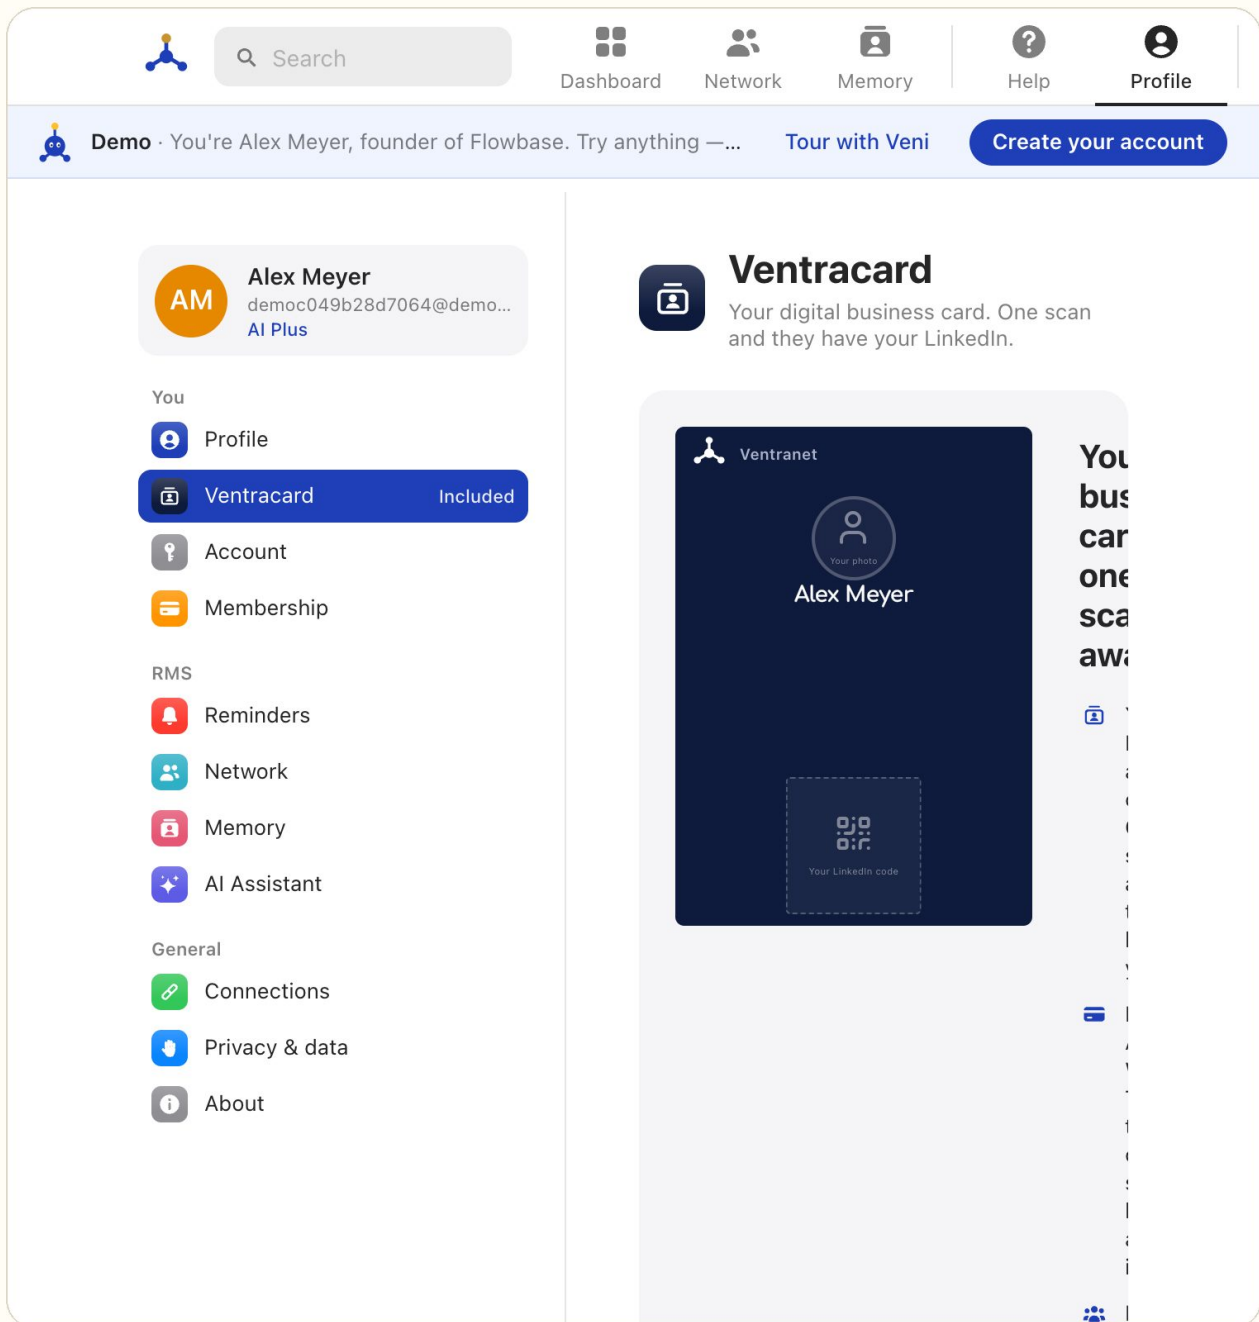

Taking it down

Write to admin@ventranet.ch. We take the card and its page down.

The Ventracard in the RMS

Included in every paid plan. On Free, CHF 3.90 once, and yours to keep.

In the RMS the card sits under **Profile → Ventracard**.

In the RMS: Profile → Ventracard.

- **On a paid plan** it is included: choose **Set up my Ventracard**.
- **On Free** it costs CHF 3.90 once, with no subscription: choose **Set up for CHF 3.90**.

Either way the card stays yours, even if you later leave a paid plan.

What it takes from your profile

Your name, your LinkedIn and the photo from your Google or LinkedIn sign-in. Change one of them for the card only, or leave it empty and the card follows your profile. Without a photo the card shows your name alone.

On iPhone and on a computer

On an iPhone, **Add to Apple Wallet**. On a computer, **Add to iPhone Wallet...** shows a code that opens your card page on the phone. **Copy link** copies the address of your card page.

The demo has no Ventracard. Create an account to set up your own.

If you delete your RMS account, the card and its page go with it.

Price, payment and refunds

CHF 3.90 once, paid through Stripe. What happens if something does not work.

The price

Terms, section 9'. At the bottom is a blue button that says 'Purchase & Start Connecting'. In the bottom right corner, there is a link: 'More in the Help Center'."/>

Enter your email address

Your receipt and the card go here. No account is created.

you@company.com

VENTRACARD · ONCE CHF 3.90

☐ Make my card right away. I understand that once it is delivered I can no longer withdraw from the purchase. If it does not work, you fix it or refund me. [Terms, section 9](#)

Purchase & Start Connecting

More in the Help Center

Your email, the price, and the tick box asking for the card right away. Then Stripe.

CHF 3.90, once. No subscription, nothing that renews. It is charged in Swiss francs, including 8.1 % Swiss VAT. On a paid RMS plan the card is included.

Paying

Through Stripe. Card payments work everywhere, and Apple Pay appears when your device supports it. Ventrane never sees your card number. Your receipt and the link to your card come by email.

If something does not work

If the page does not load, the code points nowhere, or the card will not go into Wallet, write to admin@ventranet.ch with the reference from your confirmation email. **We fix it or refund you.**

Changing your mind

The card is delivered the moment the payment goes through. Before you pay, you tick a box asking for exactly that, and from then on there is no right of withdrawal. You can have the card taken down at any time, but that does not bring a refund.

The full terms are in the [Terms of Service](#).

Still stuck?

Write to admin@ventranet.ch. A person reads every email. The Help Center at ventranet.ch/help has the newest version of everything in this guide.
